

# The Bear Essentials

Friday, September 25, 2009  
 Creation Adventures by Science Partners

***“King David and his army are mighty men and they are fierce, like a bear robbed of her cubs in the field.” 2 Samuel 17:8***

What is a bear? Where do bears live around the world? Could they be living in your neighborhood? Join Bill and Merilee Clifton – creationists, Florida Master Naturalists, and science educators – as we look at the major bear species of the world in general and then focus on our own Florida Black Bear. This bear is our state’s largest land mammal and, sadly, is on Florida’s threatened species list. Through a variety of activities, we will learn bear anatomy and physiology, behavior, seasonal activities and movement, life cycles, habitat requirements, and limiting factors. We’ll see a bear skull, claws, track, and scat (what’s that?!), as well as learn ecological concepts to help us understand how our actions impact the Florida Black Bear’s survival. Learn to “Be Bear Aware.”

**This workshop will be held at Pine Ridge Presbyterian Church, 3900 South Hiawasse Road, Orlando from 9:00 AM – 12:00 Noon.** For directions from your home, check [www.mapquest.com](http://www.mapquest.com) or [www.randmcnally.com](http://www.randmcnally.com). Creation Resources will be available for purchase. If you have any questions, contact Bill or Merilee Clifton at 407-331-3427 or [sciencepartners@cfl.rr.com](mailto:sciencepartners@cfl.rr.com). On the workshop day, you may call cell number, 407-808-4458.
