<i>Exploring the World Around You</i> , Dr. Gary Parker	12 years - Adult	Covers the seven terrestrial biomes: desert, grassland, deciduous forest, tropical rain forest, taiga, tundra, and chaparral. Provides wonderful resource supplement for homeschool curriculum. Includes questions at end of each chapter and answer keys.	\$14.00
<i>Exploring the World of Chemistry</i> , John Hudson Tiner	12 years - Adult	Provides homeschool students with a solid foundation for understanding the crucial purposes of chemistry with no evolutionary underlayings. Includes over 100 black and white illustrations and chapter questions.	\$14.00
<i>Exploring the World of Mathematics</i> , John Hudson Tiner	Grades 5 and up	Show your kids that math can actually be fun. Intended as a supplement to normal math curricula, <i>Exploring the World of Mathematics</i> is more than just a textbook. It also shows many examples of mathematics from the Bible, explaining timekeeping methods used in biblical times and more.	\$14.00
<i>Exploring the World of Physics</i> , John Hudson Tiner	Grades 5 and up	Complemented with black-and-white illustrations, the book uses ordinary speech to explain physics concepts. The author's goal is to "write at a 6th grade level, but explain the concepts so a motivated 4th grader can understand the material." Physics equations and formulas are kept to a minimum. The author starts with the simple and goes to the complex, and the development is somewhat historical in nature, but intended to be an introductory book for beginning physics students.	\$14.00
<i>Fossil Book</i> , Dr. Gary and Mark Parker	Jr. High - Adult	This book uncovers the exciting story of fossils—how they formed, where they are found, how to identify and build your own collection—all from a creation perspective. Fascinating, informative and filled with color photos and illustrations, this book will unearth the inquisitive nature in all students. Free downloadable study guide.	\$16.00
<i>Genesis of Germs</i> , Dr. Alan Gillen	15 years - Adult	It seems that a new and more terrible disease is announced almost daily. Where did all these germs come from, and how do they fit into a biblical worldview? What kind of function did these microbes have before the Fall? Does antibiotic resistance in bacteria prove evolution? This book sheds light on these and other questions showing that constantly mutating diseases are proof for "devolution" rather than evolution and that germs are the result of the literal Fall and Curse of creation as a result of man's sin.	\$15.00
<i>Geology Book</i> , Dr. John Morris	11 years - Adult	In this source book on geology for the whole family, Dr. John Morris takes the reader on a tour of the earth's crust, describing all of the components, explaining earthquakes, mountains, volcanoes, geysers, and much more. Over 200 color pictures and illustrations. Learn geology – all within the Christian perspective of the Creation, Fall, Flood, and Ice Age. Free downloadable study guide.	\$16.00
<i>God Created Series</i>	4 - 10 years	This popular series of eight "hands-on" children books contains fascinating story facts, pages to color, full-color stickers, and more! Children learn about God's creation and how to care for it. <i>God Created the...World & Universe, Plants & Trees, Sea Life, Birds, Dinosaurs, Animals, Insects, and People.</i>	\$5.00 each
<i>Lie</i> , Ken Ham	High School - Adult	The Bible warns that in the last days false teachers will introduce destructive lies among the people to bring God's truth into disrepute and to exploit believers by telling them made-up and imagined stories. Such a lie is among us – that lie is evolution! Today many laypeople, ministers, and Christian educators are powerless in their gospel presentation. Rejecting Genesis, the foundation of biblical doctrine, they believe the modern origins myth – evolution.	\$11.00
<i>Life Before Birth</i> , Dr. Gary Parker	All ages	This book helps parents to teach children from a young age that life begins at conception and helps dispel some of the myths used by abortionists. A colorful, entertaining, tastefully produced book designed to provoke family discussions.	\$12.50
<i>Life in the Great Ice Age</i> , Michael and Beverly Oard	10 years - Adult	A remarkable look at what life might have been like in the Ice Age, brought on by the Flood. Follow the fictional story of Jabeth and his family as they brave the elements and circumstances unique to a world that had been judged. Also contains much scientific information of the causes of an ice age.	\$14.00

<i>Uncovering the Mysterious Woolly Mammoth,</i> Michael and Beverly Oard	10 years - Adult	How did the Ice Age end? How did men survive during that time? How did so many woolly mammoths get preserved in ice? Why did they go extinct? Learn biblically and scientifically sounds answers to these and other questions. Follow Tungus and his tribe as they travel to a better climate away from dust storms at the end of the Ice Age.	\$16.00
<i>War of the Worldviews,</i> Ham, Hodge, Kerby, Lisle, McKeever, Menton . . .	Grade 4 - Adult	We witness daily battles and skirmishes of a culture war in our schools, courts, and homes. One view is based on a biblical understanding of history, the other on pure naturalism. How are we to respond when we hear of the latest “argument” for evolution? How can we prepare our children to face the evolutionary indoctrination of our public schools and universities? How can we build a truly biblical worldview? In this powerful book, you will find ammunition for the war: answers to some of the most common arguments for evolution, analyses of Christian compromise and a call for a return to true biblical authority.	\$12.50
<i>Weather Book,</i> Michael Oard	Grade 4 - Adult	This best-selling book teaches about every aspect of the weather, from condensation to thunderstorms, wind patterns to tornadoes, etc. Also looks at weather of the past including Noah’s flood and the Ice Age. Free downloadable study guide.	\$16.00
